

APPLICATION DEADLINE:
Friday, January 25, 2019

INTERNSHIP DETAILS

- Each intern will be assigned to a health plan, pharmacy benefit management company, employer, or other sites over a ten-week period.
- Interns will also spend 1-2 days at Pfizer headquarters in New York.
- The program will cover housing, travel and other approved expenses. Interns will also receive a modest stipend.

INTERNSHIP REQUIREMENTS

- Currently enrolled as a full-time Doctor of Pharmacy degree student in an ACPE-accredited school or college of pharmacy with anticipated graduation in 2020 or 2021.
- Candidates must submit an online application, two letters of recommendation and a letter of good academic standing from their institution including cumulative GPA.
- Must be eligible for employment in the United States.

*This annual internship reflects the commitment of the **Academy of Managed Care Pharmacy Foundation** and **Pfizer, Inc.** to fostering health care leadership through student pharmacist education and to improving the quality of patient care in the managed care pharmacy setting. This program is administered by the Academy of Managed Care Pharmacy Foundation.*

MANAGED CARE **SUMMER** INTERNSHIP PROGRAM

2019 INTERNSHIP OVERVIEW

The goal of the **Summer Internship Program** is to develop future leaders in managed health care through exposure to population health and managed care pharmacy principles via concepts such as formulary management, benefit design, medication therapy management and adherence management. Working directly with pharmacists and other members of the health care team, interns will gain an appreciation of how managed care pharmacy principles are used to maximize health care resources and patient care outcomes. Four student pharmacists will be selected for internships through a nationwide selection process.

The intern's work with Pfizer Medical Outcomes Specialists and the AMCP Foundation will expose them to the pharmaceutical industry, a public charity, and a professional membership society. This immersive experience will round out their introduction to the managed care pharmacy profession and help them develop a career plan. As a part of the structured ten-week internship program, student pharmacists will be matched with virtual preceptors and present capstone research projects at AMCP Nexus 2019.

This program is made possible through the generous support of Pfizer.
