

National P&T Competition Phases

As members of the Clinical Pharmacy Services department at Patients First Health Plan, student teams are tasked with developing a formulary drug monograph.

All schools that choose to enter the National P&T Competition are required to upload the following assignments to the P&T Competition portal before the stated deadline:

- ◆ Formulary drug monograph for the current year study drug, using the provided template.
- ◆ A file with supporting materials to include:
 - Completed Individual Study Quality Assessment Questionnaires.
 - ICER Evidence Rating Matrix summary report.
 - Supplemental budget impact model information (if applicable).

The 15 teams with the highest scores will be invited to prepare and deliver a P&T Committee presentation (not to exceed 15 minutes) that succinctly conveys and supports the team's findings and recommendations.

Teams competing in the semi-final round will be asked to share the following assignments:

- ◆ PowerPoint file for the P&T Committee presentation.
- ◆ A Zoom recording of the 15-minute P&T Committee presentation.

A select number of teams with the highest scores after the semi-finals will compete in the final round of the P&T Competition, held in conjunction with the AMCP Annual meeting.

During a live P&T Competition Finals session, teams will respond to one or more special discussion questions developed by the judges. Teams are expected to be able to answer the question(s) based on their work in earlier competition rounds.
