

## National P&T Competition Phases

As members of the Clinical Pharmacy Services department at Patients First Health Plan, student teams are tasked with developing a formulary drug monograph and preparing a presentation for a P&T Committee.

**All schools** that choose to enter the National P&T Competition are required to upload the following assignments to the P&T Competition portal before the stated deadline:

- ◆ Formulary drug monograph for the current year study drug, using the provided template.
- ◆ A file with supporting materials to include:
  - Completed Individual Study Quality Assessment Questionnaires.
  - ICER Evidence Rating Matrix summary report.
  - Supplemental budget impact model information (if applicable).
- ◆ A narrated PowerPoint file for a P&T Committee presentation (not to exceed 15 minutes) that succinctly conveys and supports the team's findings and recommendations.

During this phase, the formulary drug monograph will be reviewed and scored by judges.

**The 15 teams with the highest scores** will advance to the semi-final round.

During this phase, each semi-finalist team's narrated PowerPoint file will be reviewed and scored by judges.

The teams that achieve the highest scores during the semi-finals round will be invited to compete in the final round of the P&T Competition, held in conjunction with the AMCP Annual meeting.

During a live P&T Competition Finals session, teams will make their P&T Committee presentation to a panel of judges and respond to questions.
