

Employee Matched Giving Programs at Managed Care-Related Companies

Many companies offer employees the opportunity to “match” financial donations to a charity, up to a certain amount determined by the company. Usually, the company’s Human Resources or Payroll Departments administer employee matched giving programs. A general criterion is that the donation must be made to a 501 (c) (3) public charity, such as AMCP Foundation.

Below is a partial list of corporate matched giving programs active in managed care and healthcare. Let us know if your company’s program is not listed and we’ll add it.
