

## National P&T Competition Phases

As members of the Clinical Pharmacy Services department at Patients First Health Plan, student teams are tasked with developing a formulary drug monograph and preparing a presentation for a P&T Committee.

**All schools** that choose to enter the National P&T Competition are required to upload the following assignments to the P&T Competition portal before the stated deadline:

- ◆ Formulary drug monograph for the current year study drug, using the provided template.
- ◆ A file with supporting materials to include:
  - Completed Individual Study Quality Assessment Questionnaires.
  - ICER Evidence Rating Matrix summary report.
  - Supplemental budget impact model information (if applicable).

**The 15 teams with the highest scores** will advance to the semi-final round. During this round, teams will be judged on their ability to create a succinct PowerPoint presentation to the P&T Committee based on the drug monograph. Semi-Finalist teams will be asked to share:

- ◆ A PowerPoint file with slides for the P&T Committee presentation.
- ◆ A recording (voices only, not to exceed 15 minutes) of the P&T Committee presentation.

The teams that achieve the highest scores during the semi-final round will be invited to compete in the final round of the P&T Competition, held in conjunction with the AMCP Annual meeting.

During a live P&T Competition Finals session, teams will make their P&T Committee presentation to a panel of judges and respond to questions.
