

APPLICATION DEADLINE:  
**Wednesday, February 12, 2020**

## INTERNSHIP DETAILS

- Each intern will be assigned to a health plan, pharmacy benefit management company, specialty pharmacy, or other site over a ten-week period.
- Interns will also spend 1-2 days at Pfizer headquarters in New York.
- The program will cover housing, travel and other approved expenses. Interns will also receive a modest stipend.

## INTERNSHIP REQUIREMENTS

- Currently enrolled as a full-time Doctor of Pharmacy degree student in an ACPE-accredited school or college of pharmacy with anticipated graduation in 2021 or 2022.
- Candidates must submit an online application, two letters of recommendation and a letter of good academic standing from their institution including cumulative GPA.
- Must be eligible for employment in the U.S.

This annual internship reflects the commitment of the **Academy of Managed Care Pharmacy Foundation** and **Pfizer, Inc. Oncology Organized Customer Field Medical Team**, to fostering health care leadership through student pharmacist education and to improving the quality of patient care in the managed care pharmacy setting. This program is administered by the AMCP Foundation.

# MANAGED CARE: ONCOLOGY SUMMER INTERNSHIP

## 2020 INTERNSHIP OVERVIEW

The goal of the Summer Internship Program is to develop future leaders in managed health care through exposure to population health and managed care pharmacy principles via concepts such as formulary management, benefit design, medication therapy management and adherence management **with a focus on oncology**. Working directly with pharmacists and other members of the health care team in oncology, specialty pharmacy, or related business units, interns will gain an appreciation of how managed care pharmacy principles are used to maximize health care resources and patient care outcomes. Two student pharmacists will be selected for internships through a nationwide selection process.

The intern's work with Pfizer Field Medical Directors and the AMCP Foundation will expose them to the pharmaceutical industry, a public charity, and a professional membership society. As a part of the structured ten-week internship program, student pharmacists will be matched with virtual preceptors and present capstone research projects at AMCP Nexus 2020. This immersive experience will round out their introduction to the managed care pharmacy profession and transform their career plan.

This program is made possible through the generous support of Pfizer, Inc., Oncology Organized Customer Field Medical Team.

### NEW IN 2020: Seeking entrepreneurial students with experience in research.

Now recruiting our first-ever interns to focus on oncology! Optimizing cancer care has never been more important.

- 1.73 million new diagnoses annually in U.S.

- Persistently high mortality rate

- Nearly \$150 billion in healthcare expenditures.
